ACADEMIC DRESS

American academic dress has its origins in the garments worn at medieval British universities, particularly Oxford and Cambridge. Because of the close connection between the University and the Church, students and faculty wore clerical garb. It is from these medieval, cassock-like garments that American academic dress is derived.

The black mortarboard cap is adorned with a black tassel for holders of the associate, bachelor and master degrees. A gold tassel signifies the wearer has received a doctoral degree or is a governing official of an educational institution.

The associate’s and bachelor’s gown are simple and may be recognized by long, pointed sleeves. The master’s gown is fuller and the sleeves are square at the ends. The doctor’s gown is more elaborate and has sleeves decorated with three horizontal velvet bars.

The hood is the most distinctive feature of academic attire. Used originally as a cowl, it is worn suspended from the shoulders. The length of the bachelor’s hood is three feet; the velvet border, two inches. The hood for the master’s degree is three and one-half feet long with a three-inch boarder. The doctor’s hood is four feet long; the border, five inches wide. The lining is colored with the official color of the institution conferring the degree. The border color indicates the field of learning in which the degree was earned.

Hoods worn by Niagara County Community College degree candidates display the blue and gold college colors on a background of white or gold. Candidates for the Associate in Arts degree wear hoods with a white background. Hoods worn by candidates for the Associate in Science and Associate in Applied Science have background of gold.
ABOUT NCCC’S GRADUATION

The students listed in this booklet are “Candidates for Degrees/Certificates.” Degrees and Certificates will be conferred upon successful completion of academic requirements.

Degrees are awarded with Merit (*), Distinction (**) and High Distinction (+) and are noted by the designations shown after the graduate’s name. Due to the date of this ceremony, honors for May 2004 graduates are based on their grade point average at the end of the Fall 2003 semester.

Students who are members of the Phi Theta Kappa and Alpha Beta Gamma Honor Societies are so designated with a (P) and (A) after their names.

Students graduating from NCCC’s Honors Program have an (H) after their name.

We apologize for any omissions or spelling errors. Due to late filing of Degree Name Card, the student’s name may not be listed in this program. However, the student will graduate if he/she has successfully fulfilled graduation requirements.
Guests are requested to rise as the procession enters the gymnasium and remain standing for the Pledge of Allegiance and National Anthem. Guests are also requested to rise as the graduates leave the gymnasium.

OVERVIEW OF THE COLLEGE

Evidenced by 40 years of service, Niagara County Community College provides "the people of the Niagara region with a teaching and learning environment dedicated to excellence. NCCC is committed to maintaining the hallmarks of student centeredness, accessibility, comprehensiveness, collegiality, community partnership and lifelong learning."

Established as the twenty-fifth State University of New York-chartered two-year college on November 8, 1962, NCCC is sponsored by the County of Niagara, New York.

The eight interconnected buildings of the Sanborn, New York, campus were constructed between 1971 and 1973, with an expansion of the Notar Administration Building in November 2002 to unify the student services offices of the College. The College is centrally located in the 523 square mile county of 218,509 residents on 287 acres of rolling, semi-wooded land approximately ten miles from each of the three cities in Niagara County: Lockport, Niagara Falls and North Tonawanda. Communities in the surrounding counties—Erie, Orleans and Genesee—as well as Southern Ontario, Canada, are within easy driving distance.

True to its student-centered mission, NCCC is focused on student success and workforce development. The principle strength of the college is its academic programs, spanning 36 Associate in Arts, Associate in Science and Associate in Applied Science degree possibilities. Additionally, one-year certificate programs are offered in 14 programs, providing excellent workforce development to help residents who wish to improve their job skills in a shorter period.

The College also plays an active role in economic development as home of the state’s largest Corporate Training Center, the Niagara Small Business Development Center, a business incubator, the Business Resource Center and the International Trade Education Center. NCCC also offers short-term job readiness training for adults and educational assistance to disadvantaged youth at the Trott Extension Center in Niagara Falls.

Currently 170 full-time faculty and over 200 part-time faculty create a very effective 18 to 1 student-to-faculty ratio. Small classes, outstanding teaching and individual attention are the hallmarks of NCCC. Approximately 5,000 students attend NCCC annually.
